COUNTER

BALANCE[®]

The support you don't see.

FOR WALL MOUNTED SURFACES

The CounterBalance Extended Concealed Flat Brackets provide a secure install to support stone and solid surface countertops on handicap accessible vanities, and other "floating" work surfaces. The vertical portion of the flat bracket is concealed behind the dry wall leaving the installed bracket virtually invisible when viewed from above.

The Extended Concealed Flat Brackets are designed to attach to load-bearing studs and features and vertical extension above the support arm for extra strength. The Extended Concealed Flat Bracket can support an overhang extending 6" beyond the length of the bracket as per industry standard recommendations. These products are available in many useful sizes and come in a variety of colors to match your surface.

Various
sizes available

- Low-profile brackets provide a clean, "floating" look for your countertop
- Hot rolled 1/8" steel with powder-coated finish for strength and durability
- Mounts to studs behind drywall
- Available in white and black
- Available with 9", 12", 18" 24" and 30" support arms. Load limit range of 1,400 lbs. to 4,900 lbs. per pair — countertop can extend up to 6" beyond the support
- Supports should be placed every 16" to 20"
- Available in standard 2" thickness and Mini 1" extended concealed flat bracket mini
